Will Carry 127 Pounds Each and Are Asked to Concede Three Pounds to Advance Guard-Irish Lad Is Considered the Best of the Three-Year-Olds.

Turfmen will glance with more than passing interest at the weights for the Brighton Handicap for 1903 announced this morning, if for no other reason than that the best horses of the year and the country are engaged in the Brighton, and the allotment made by Handicapper Vosburgh foreshadows his estimate of the relative abilities of the horses of the country, and also indicates what his allotments will be in the Brooklyn and Suburban
handicaps, which precede the running of
the Brighton. The variation in weight in any of these events will not be more than a couple of pounds, so that a glance at the Prighton adjustment may be said to fore-shadow the great handicaps of the year. The big field of horses engaged in the Brighton includes the very pick and flower of the handicap division of America.

Advance Guard, the iron horse, the hero of many gallant struggles on the turf, is next on the list with 124 pounds, while the erratic Blues gets off with two pounds less. Of the three-year-olds Irish Lad is rated best by the handicapper. He receives 106 pounds, four pounds more than Grey Friar,

the conqueror of Acefull. The Brighton Handicap is at a mile and a uarter, has \$10,000 in added money and the

AUSTIN, Tex., Jan. 25.—George J. Gould has purchased eight polo ponies from Harry Tappan, the owner of the ranch near West End. They were shipped to him last night in a special car. The car is accompanied by H. C. Singer, one of Mr. Tappan's cowboys. The car goes through to Lakewood, N. J., where Mr. Gould's estate is located. The ponies have been in training for the last three months, and so thoroughly have they been trained that it is said they are able to spin around on a half dollar.

The Pratt Institute Gymnasium never held a more enthusiastic throng of speciators than it did on Saturday afternoon, when the Brooklyn like School boys met the Erasmus Hail High School in the final game for the championship of the Long Island Interacholastic Athletic League. In the first period of play Capt. Wilson of the High School who entered the game for the first time since the accident when his ribs were broken, made a majority of the High School's points, throwing with either hand for the cage and giving a wonderful exhibition of skill. The Boys' High School tailled it points in the period, shutting out the Platbush students without a taily. F. Klendel saved Erasmus from a whitewash in the second hair by throwing two bashets from the foul line. High School was by 29 points to 2.

WRESTLING.

Matched to Meet in This City.

George Bothner has made up his mind to retire from the mat for good and all. He thinks the step is advisable in view of the fact that his shoulder is bothering him more than ever. Bothner has one match on, which he must keep as he has posted a forfeit. It is with August Faust at the New Polo A. C., next Thursday night. "I have been on the mat for over twenty years," said the lightweight champion yesterday, "and it is time to quit. I am not at all in shape, yet I have been going against all comers. I have a to quit. I am not at all in shape, yet I have been going against all comers. I have a good business proposition on hand which I intend to take care of. I am in partnership with Billy Elmer in a gymnasium and I have over sixty pupils. I need most of my strength to teach them and there is more money in it for me, too. I weigh only 135 pounds now, when I ought to weigh 145, which shows that I am losing, from too much work." Bothner

I am losing, from too much work." Bothner is nearly 35 years old, but does not look more than 22. He is regarded as one of the best wrestlers in the world at his weight.

Ton Sharkey intends to try his skill again on the mat and has selected Dan McLeod as an opponent. The two have signed articles for a handicap match in Cleveland on Feb. 12. The new catch-as-catch-can champion will undertake to throw Sharkey twice in one hour.

John Plening struck a snag at Elizabeth the other night when he attempted to throw two men, Carl Schmidt and Neil Olsen in fifteen minutes. Piening succeeded in downing Olsen, but it took him nine minutes to turn Olsen over. Schmidt stayed the remaining six minutes.

George Fischer, wrestling instructor of the New Polo A. C., has received a challenge from Tom Matthews, a local middleweight. Fisher says that if any club will give a purse he will arrange a match at catch weights.

Whatever Jack Munroe, the Anaconda miner, may know about boxing it cannot be said that his knowledge of wrestling is not wide. The other day Munroe had a filt with George Bothner, and when the affair was over the latter had nothing but praise for the miner. The style was catch-as-catch-can. At first Bothner was inclined to be lenient with Munroe. But Munroe soon showed that he was no novice and tossed Bothner about at will. When the contest was finished Munroe admitted having been on the mat before. He surprised every one by saying that he had wrestled with Dan McLeod when the clatter was in California several.

when the latter was in California several years ago.

In the event of defeating John Piening in Madison Square Garden on Jan. 31. Tom Jenkins says that he will try to induce Dan McLeod to meet him again. "I have posted a forfeit, and it has been up for nearly two forfeit, and it has been up for nearly two weeks," says Jenkins. "though it has not been covered. When I was the champion I never failed to give anybody a return match. I threw McLeod on two occasions, but each time I was willing to give him a chance to redeem himself."

Harvey Parker and Max Wiley have been matched to meet within a month. The contest will be held in this city, perhaps at the New Polo A. C. The match will be catch as-catch-can, best two in three falls.

Joe Grim Boxes Jack Bennitt a Braw at Philadelphia.

Joe Grim, the Italian middleweight, boxed a six-round draw with Jack Bennitt of Mc-Keesport, Pa., before the Ariel A. C., Philadelphia, on Friday night. Grim has only been boxing a short time, was not seriously considered until he achieved a reputation by staying six rounds with Philadelphia Jack O'Brien a few weeks ago. A battle in private has been arranged between Casper Leon and Pinky Evans of Yonkers. They are to meet for twenty rounds next week at 120 pounds.

The Fall Mountain A. C. of Bellows Falls, Vt., has offered a purse for a "go" between Jack Hamilton of Troy and Jimmy Briggs, the Boston featherweight.

George Dixon, who is still in England, has issued a challenge to meet either Pediar Paimer or Will Curley. Several clubs have agreed to offer a purse if the match is made.

Jim Gurder of this city is out with an offer to etop Joe Grim, the Italian puglits, of Philadelphia, inside of six rounds. Failing to do this Gurder asys he will forfeit \$500.

Willie Schumacher, the former amateur 105-pound champion, is after the winner of the Tokell-Forbes inill. Since Schumacher joined the professional ranks he has won three consecutive battles, defeating his rivals by knocking them out.

St. Louis sports expect a revival of boxing in that city in a short while. Already several important matches have been arranged to be held there, notably the one between Andrew Tokell of England and Harry Forbes of Chicago, for the bantam title. Another bout between Danny Bougherty and Tommy Feltz is also on the tapis.

There is no likelihood of Jimmy Britt and Joe Gans coming together, at least for the presentances of the proposal to ston Britt within twenty rounds is not taken seriously by the Californian, who says that the offer is a bluff. "When I became a puglish," and Britt, "I made a resolution not to meet colored men and I don't intend to go back on it now."

Tom Carey, the "Terrible Irishman," who has been doing excellent work in the heavyweight class, will have a chance to show the Boston sports how good a puglist he is. Carey has been matched by his manager, Johnny Mack, to meet Charley Haughey, the Lowell boxer, before the Lenox A. C., Boston, on Jan. 28. They are slated to meet for twelve rounds.

Dan Creedon, who seems to have received a new lease of life, has been matched to box Bill McCall before the National Sporting Club, Sydney, Australia, on Feb. 10. The limit is twenty rounds. McCall while not a great fighter, is acknowledge dly ciever and a sitring mill is expected. Should Creedon win he will go to England where he has been promised a match before the National Sporting Club, London, with Jack Palmer, the crack English middleweight.

The match between Jack Downey and Billy Moore of St. Louis has been practically clinched. It is not likely that the contest will be held in private, for the boys believe that they can make more money holding the struggle in public. Frank Richheimer, Downey's manager, is in communication with the Essex A. C. of Boston, and the combat will, in all probability, be decided before that club. Downey and Moore have bet \$250 on the side. dleweight.

Martin Duffy Puts Tom Wallace to Sleep. An interesting bout was decided before the Milwaukee Boxing Club on Friday night. Martin Duffy, the crack Western lightweight met Tom Wallace of Philadelphia for 10 rounds met Tom Wallace of Philadelphia for 10 rounds and defeated him in the sixth round. In the second round Wallace went at it hammer and tongs, and Duffey had all he could do to avoid being put down. In the third and fourth rounds Wallace was the recipient of some stiff punches, and went down several times to avoid punishment. Wallace was also floored in the lifth with a stinging smash in the wind. In the sixth Duffy rushed and with a heavy right on the chin knocked Wallace down. Wallace could not respond, and Duffy was declared the winner.

done this winter, it is the belief in mining circles that a large copper camp will develop there in the spring. The Soap Gulch mines, also in the Meirose district, in all of which some copper has been found, are attracting considerable attention.

Reports just received from the Daniels-ville district, Deer Lodge county, tell of the richest strike in the history of the camp, where gold was first encountered a year ago. The big body of ore was struck at the 160-foot level and the ledge is eight feet wide. Crude assays show that it is wonderfully rich. The vein has the appearance of being permanent, is well defined and can be worked easily. Danielsville is a few miles from Anaconda, and it is said rich outcroppings have been found for some distance around the new camp. The ore is free milling, and is being treated at a 10-stamp mill on the mine site.

Flattering reports continue to come from the Sunday district, Granite county, and the outlook for a gold camp of note is regarded as excellent.

Huggiron Mich., Jan 12—One of the surprises of the past few weeks has been the mill returns secured from Winoha rock. The first shafts on this property were opened forty years ago, that dies ourself, organized four years ago, had dies couraging results from aimost the start of opening, which proved very disappointing, as the riel rock in the shallow shafts had led the owners to hope for great things. For the past two years the outlook has been decidedly blue. In order to give the property at least a mill test, after the expenditure of several hundred thousand dollars arrangements were made to lease one hend at the Atlantic mill for a few weeks. Some of the best rock taken from the mine during the past three years was sent to the mill. The best judges were divided in opinion as to whether this rock would yield it of 15 per cent. mineral, respectively 25 and 30 pounds a ton. To the surprise of all concerned the first week's run averaged 55 pounds of mineral a ton, a higher percentage of copper than is being secured from any mine of the district except the Calumet and Hecla. Later returns have been smaller, but still very good. The Winona openings are very bunchy, with a slow, but apparently permanent improvement at depth. The future of the Winona is by to means assured, but it is about ten times as hopeful as before the mill test was begurnin fact, it was generally thought, and by people close to the management, that the mill test was liable to give the finishing stroke to the fortunes of the mine. If the Winona can develop any considerable amount of ground showing as good stopes as are now shown at several points, the property will make a mine.

San Francisco, Jan. 19—Final payment has been made upon the Balaklala group of copper mines at Keswick. Shasta county. The payment was made by P. L. Kimberly, the iron manufacturer of Pittsburg, who is the chief stockholder of the Western Exploration Company. The Balaklala mines have a very large body of fine copper ore blocked out. The Mountain Copper Company had a \$50,000 bond on the property and spent a year in protecting the mines. The managers decided to accept the mines for \$250,000 but by some carlessness they were one hour late in taking up the option and Kimberly and his friends grabbed the bargain for \$650,000. The Balaklala will be developed at once. The Mountain Copper Company is shut down because of fire in the mine and a strike, but the latter may be settled at any time.

In the Blue Jay mine only four miles north of Redding and within two and a half miles of the great smelters at Keswick, a fine body of copper or has been found. Samples show native copper pyrites and peacock copper in large quantities. The ledge is two and a half feet wide on the surface and can be traced for 1,000 feet. A shaft has been sunk and the ledge widens as it goes down.

The Gwin mine in Calaveras county has amounting to \$75,000. For 1992 it paid stifends is \$420,500. The Gwin mine was abandoned when Frederick F. Thomas, a well-known mining engineer, organized a company and bought it. He figured out that the shaft would tap the rich rock of the mother lode if carried down to 2,000 feet. So he spent

mineral land in the camp. The blocks into which the property will be divided for leasing will be 300 feet square. Already 1,500 applications for leases have been filed. Thousands of practical miners will certainly exploit and develop the mines under this system.

The northern section of Cripple Creek, particularly the Copper Mountain region is active. This is new territory. The ore fixed by the copper Mountain region is active. This is new territory. The ore of which a large amount is uncovered, is low grade, but yields to the examide process readily. A mill is being erected for treating it. Ore worth \$4.50 to \$10 a ton can be treated with profit.

The ore reserves in the various mines of the camp are estimated expertly to be worth \$150,000,000. This is about equivalent to what has been extracted to date, making Cripple Creek's known contribution to the world's gold supply, in round numbers, \$300,000,000. Alueh interest is shown in the deep mining that is being done in the camp, on the conviction that a second Cripple Creek underlies the present one. Experiments in deep mining are constantly rewarded with gray copper ore rich in sylvanite, sulphide ore, and other geologic data of permatent cre bodies of great wealth.

The January production record bids fair to eclipse that for December, due largely to increased milling facilities.

Work on the general drainage tunnel, contract for which was let some time ago to the El Paso Mining Company, is progressing. Deep mining will be greatly aided by the success of this tunnel.

three to five feet wide, all ore. Several crushings yielded from \$12 to \$14 a ton in free gold.

MEXICO.

AUSTIN. Tex., dan. 22—An American company has secured a six months' option on the Cerro Colorado mine, in the State of Durango. The purchase price is \$1,600,000, Mexican currency. Under the terms of the option the syndicate is to exploit the mine during the period named at its own cost, and is to give one-third of the profits to the owners.

The attention of mining men in Mexico has been attracted to a new gold-producing district that is being developed in the State of Chihuahua. This new district is situated four days' ride over the mountains from Minaca. The Dolores mine, situated in the district, recently shipped its first car of gold ore, which netted \$17,000 gold, after being packed on burros for six days. The Dolores Mining Company, which is combosed of Americans, is the owner of the mine. The pupile is situated in a country that is well timbered and watered. Many American prospectors are going to the place and are locating claims.

A number of Boston men, composing the Chihuahua Mining Company, are on their way to Mexico to investigate their mining properties. This company has a capital of \$5,000,000 and has recently acquired a number of rich mines situated in the Terrazas district, State of Chihuahua.
